

ENVIROFLEX RANGE

FOAM GRADE	DENSITY
VC40	40
VC45	45
VC50	50
VC55	55
VC60	60
VC80	80
VC85	85
VC100	100
VC120	120

PLEASE NOTE

- The Higher the Density the lower the variation in Density and Hardness of the Rebond Foam over the height of the block and vice verse.
- The Higher the Density the greater the Tensile Strength of the product and vice verse.
- The Greater the Thickness the Greater the Tensile Strength of the product and vice verse.
